

As I took over charge of Pr.CDA (Southern Command) Pune, it was difficult not to get overawed by the fact that this office has been in existence for more than 200 years and has established itself as a flagship office of this Department. This office has set high standards in all areas of work, which other offices try to emulate. I take it as my first and foremost duty to up hold these high standards and try to take the organization to even greater heights. I am sure all of you also feel the same way about the organization and work towards improving the functioning of the organization and making the organization, the Best in the Department.

Being an organization which provides services of payment, accounting and financial advice to various units and formations of the Armed Forces, it is our duty not only to ensure timely and correct accounting of expenditure but also be highly responsive towards the needs of our clients. It is not enough to provide correct and timely service but we need to try and meet the aspirations of

the armed forces to whom these services are to be provided. Our PAOs are responsible for payment of the pay and allowances of over 3.2 lakh Jawans of the Indian Army. With the enhanced level of automation, it should be possible for us to provide services to their satisfaction. We just need to be slightly more vigilant.

In short what I am trying to say is that we should not only do our jobs properly but also take that extra care which ensures that our clients not only get their full dues but are also satisfied about the accuracy of payments.

I am sure if we all work together and with the aim of making this organization an even greater one we should be able to achieve it. I convey my best wishes to all of you and look forward to working with the highly dedicated work force of the organization of PCDA (SC).
